POPULATE YOUR INVENTORY SOFTWARE AT THE CLICK OF A BUTTON.

BENEFITS

PRODUCTS

Frames Data has integrated with dozens of software packages. Please refer to www.framesdata.com to determine which product your software will work with.

Frames Data IDA (Immediate Data Access) delivers data directly into your software via the web. Simply record your username into your software to turn on access.

SPEX UPC is a monthly file download or CD-Rom.

600+ BRANDS

Frames Data is constantly growing as new eyewear brands and collections are introduced.

Frames Data takes hours of tedious hand entry and turns it into a completed task in a fraction of the time.

"When frames aren't in Frames Data, I have to enter them manually. Each one takes 5-10 minutes, which adds up to a lot of time and effort.

But when the frames are already in Frames Data, I can inventory each one in just 1 to 2 minutes.

Once they are in, they can go right out to the frame board for patients."

— Kent Van Cleave
Rio Linda, CA

UPDATE INVENTORY IN A SNAP

Say goodbye to tedious, time-consuming data entry. Pre-load frame details, and receive frames to inventory with a wave of your barcode scanner.

PROTECT YOUR MARGINS

Frames Data helps you avoid data entry errors that end up costing money. You'll also keep your retail rates current and your managed care claims accurate.

MAKE THE MOST OF YOUR TECHNOLOGY

Like an instant database! Frames Data populates your inventory software so you can realize the full potential of your inventory tools with minimal effort.
